## BOOK NOTE

*Handbook of the Law of Wills*, by Thomas E. Atkinson. West Publishing Company, Saint Paul, 1937, pp. xiii-916.

This new hornbook as a successor of Gardner on Wills is not merely a new edition but differs both in approach and scope. Although designed primarily to fill the needs of the student it contains many practical suggestions for the drafting of wills and the administration of estates. The very complete table of cases, the excellently constructed index and the extensive references to law articles lend much to its usefulness.

The book should enjoy a wide use among students particularly those using *Wills and Administration* by Mechem and Atkinson, and even among practitioners where the larger treatises are not available.
