SPORTS LAW IN LAW REVIEWS AND JOURNALS

[This index is presented as a service to our members and the sports law community, to provide a source for current publications in the sports law field. Articles were included in this index if they were published in a law review or journal, or other legal publication after January of 1997. Articles were grouped in general categories as appropriate. The index will be updated on a semi-annual basis in every future Journal. Sources used for this index include the Index to Legal Periodicals, Westlaw and LEXIS, and the NSLJ's library. This list is as extensive as possible but is not claimed to be completely exhaustive. Authors or publications that do not find a reference in this index are encouraged to contact the Marquette Sports Law Journal at the address provided in the beginning of this edition.]
